*There were several types of course categories within the credit and non-credit system; prior to 1990-91, the headcount number for non-credit students represented an unduplicated count within each of the various non-credit course categories. Beginning 1990-91, the unduplicated headcount number represents an unduplicated count between all non-credit course categories. However, the potential of duplication between credit and non-credit, i.e., a student who takes both credit and non-credit courses are counted twice.

▪Beginning Fall 2002, the total includes upper division students.
