ST. PETERSBURG COLLEGE

2007-2008 *FactBook*

INTRODUCTION

The St. Petersburg College *FactBook*, in its sixteenth edition, is intended to provide statistical information to support sound planning and decision-making, as well as to provide a historical perspective of the institution. It is designed for use as a reference documenting data to support academic and administrative decisions and as a handbook for use by faculty wishing to gain a college-wide perspective.

In general, data are provided for multiple years in each section to provide a comprehensive view of the area. Topics include a brief college history, a description of the service area, and data related to the College's student body, academics, personnel, financial position, facilities, and outcomes indicators. Graphs and charts provide an at-a-glance comparative perspective.

As with any publication, this book is the result of the time and efforts of many people both in developing the information and producing the final copy. An in-house production, the cover was designed by the staff in Institutional Advancement and the book printed in District Impressions. Many thanks to all SPC staff who were involved in this publication. We hope you will find this *FactBook* useful.

History of St. Petersburg College

Access and excellence are the hallmarks of St. Petersburg College, founded in 1927 as St. Petersburg Junior College, Florida's first two-year institution of higher education.

Initially a private facility, its first classes were in an unused section of the then-new St. Petersburg High School. After one semester, the College occupied a former public school building overlooking Mirror Lake downtown.

Today the College stands as a multi-campus, two-year/four-year public institution with 10 learning sites countywide. Services are administered throughout the nation and beyond. More than 63,000 students a year are served by SPC, including students in residence from many countries. Learning sites are in St. Petersburg (four), Clearwater, Tarpon Springs, Pinellas Park, Largo and Seminole.

The latter, which opened in August 1998, includes the C.W. Bill Young University Partnership Center (UPC), which opened in 1999 with a half-dozen Florida four-year institutions in collaboration. The UPC enables students to earn various baccalaureate and graduate degrees from partner institutions without leaving Pinellas County, and its partnerships total 16 and include three out-of-state institutions: Case Western Reserve University and Cleveland State University, both in Ohio, and Indiana University.

SPC's courses also are offered in various community facilities throughout the county via the Lifelong Learning program. Others — including entire programs — are transmitted to students by way of the Internet. Since early 2001, the College has offered more online programs than any other community college in the state, and more than most of Florida's universities.

In June 2001, legislation was signed by Gov. Jeb Bush enabling SPJC to become the first among Florida's 28 public community colleges to transition to a four-year institution. The College dropped the "Junior" from its name, but not its commitment to its two-year mission, which remains as strong as ever.

STATEMENT OF PURPOSE

The mission of St. Petersburg College (formerly St. Petersburg Junior College) is to provide accessible, learner-centered education for students pursuing selected baccalaureate degrees, associate degrees, technical diplomas, technical certificates and continuing education within our service area as well as globally in program areas where the College has special expertise. As a comprehensive, multicampus state postsecondary institution, St. Petersburg College seeks to be a creative leader and partner with students, communities, service agencies, businesses and other educational institutions to deliver enriched learning experiences and to promote economic and workforce development.

- St. Petersburg College fulfills its mission led by an outstanding, diverse faculty and staff whose work is enhanced by advanced technologies, distance learning, international education opportunities, innovative teaching techniques, comprehensive library and other information resources, continuous institutional self-evaluation, a climate for student success, and an enduring commitment to excellence.
- St. Petersburg College is dedicated to the concept of equal opportunity. The College will not discriminate on the basis of race, color, religion, sex, age, national origin or marital status, or against any qualified individual with disabilities, in its employment practices or in the admission and treatment of students. Recognizing that sexual harassment constitutes discrimination on the basis of sex and violates this rule, the College will not tolerate such conduct.

IN THE BEGINNING

THE CHARTER

Capt. George M. Lynch, Pinellas County's city superintendent of public schools in St. Petersburg, founded St. Petersburg Junior College in 1927 as a private, nonprofit corporation to help meet the needs of a growing state population and to provide local access to higher education for students with limited resources. The Great Depression came early to Florida, and the "paper boom" (inflated land values) fueled inflation during the mid-'20s in the Sunshine State. Families of many high school graduates suddenly found "going away to college" beyond their means.

The College enabled students to live at home, pay low tuition, work part-time and still pursue a postsecondary education. The 1928 charter application to the State of Florida listed the following aims:

To found, maintain and conduct a scientific institution of learning; having a department of fine arts; and such other departments as from time to time may be added in accordance with the provisions of the by-laws; to own, buy, sell and mortgage real estate and personal property and to use all income derived there from in its work and not for the benefit of the members of said Corporation.

Led by Lynch, who would become the College's first president, a group of local citizens signed the charter application. They were L. Chauncey Brown, publisher of St. Petersburg's *Evening Independent* newspaper; Frederick R. Francke, a Florida Power Corporation executive; Frank N. Robinson, an insurance executive; George W. Wylie, an attorney; and Robert R. Walden, a merchant. Together with Mrs. H. C. Case, a Pinellas County trustee, they made up the founding Board of Governors. They demonstrated their dedication by signing personal bank notes guaranteeing expenses until tuition could be collected. The city's Advertising and Library Board also backed SPJC to the tune of \$15,000.

Board members managed the corporate affairs until the first election, when Brown was named board president; Francke, vice president; Robinson, treasurer; and Wylie secretary. Lynch, who eventually rose to county superintendent, remained president of the College until his death in 1935. At that time, Robert B. Reed, whom Lynch had selected as dean of the College, was appointed by the board as the second president. G.V. Fuguitt succeeded Lynch as county superintendent. The informal relationship between the College and the Pinellas County Schools continued.

COLLEGE PROGRAMS

In the beginning, advice was sought from educators at the University of Florida regarding the type of college to be created. They recommended a two-year college, noting that it would be much less expensive to operate than a four-year institution. Lynch and the board agreed, but clung to the idea that SPJC would become a four-year college as soon as it was financially feasible. In the 1927 catalog, the goal of the College read as follows:

. . . to afford opportunity to the young men and young women of St. Petersburg and Pinellas County who have completed the 12th grade course of study, to continue a two-year program of study of college grade, leading to the degrees of Bachelor of Arts and

Bachelor of Science. Non-resident students will be admitted upon certificate showing that they are living with their parents, legal guardians or relatives.

Students who attended the College planned to graduate in arts and sciences. At the time, there were no separate academic departments, but the curriculum was comprised of history, English, mathematics, science and education. Students would either transfer to a four-year college or university to complete their baccalaureate degrees or receive a teacher's certificate permitting them to seek employment in elementary and secondary school classrooms. As noted by State Superintendent of Public Instruction W. S. Cawthon in 1928:

This office will recognize graduates of the St. Petersburg Junior College . . . and will issue limited Graduate State Certificates to the said graduates, said certificates authorizing the holders thereof to teach in the public schools up to and including the tenth grade.

The College became fully accredited in 1931. Preparation for transfer to four-year colleges was strengthened in September 1933 by the addition of a third year to the curriculum, a year recognized under certain provisions by the University of Florida. In 1934, the third year of college was similarly recognized by the Florida State College for Women (now Florida State University). The additional year of the curriculum was dropped at the end of the 1938-39 academic year because it had become evident that expenses progress geometrically, not arithmetically. The Board of Governors determined to maintain a strong, high-standard, two-year college and abandoned further efforts to seek four-year status.

FACULTY AND STUDENTS

The opening-day enrollment in Fall 1927 was reported by both the local newspapers as 102. The first class was Sept. 12. W.W. Little, principal of St. Petersburg High School and acting college dean, was in charge of 14 faculty members. By 1928-29, Robert B. Reed had been appointed dean, and taught history while performing his administrative duties. That fall (1928), 186 students enrolled; the following June, 50 students proceeded down the aisle as the charter graduating class. The College granted diplomas, a practice that continued until June 1946 when the first Associate in Arts degrees (44 in all) were awarded. Opening fall enrollment grew from 173 in 1930 to 389 in 1939.

At the beginning of Fall term in 1941, enrollment stood at 317. In early December, the United States was drawn fully into World War II. SPC's enrollment dropped sharply, reaching a low of 98 students — almost all of them women — in the fall of 1943. The College avoided closure by becoming an integral part of the war effort. A Civil Aeronautics Administration/War Training Service (CAA/WTS) installation was established. Every six weeks, 60 naval V5 cadets rotated through the College for part of their early training. Housed in an old hotel near Albert Whitted Airport on the city's bay front, they received their first experience as pilots while attending "ground school," which included navigation, plane recognition, physical training and naval procedures relevant to their objective. Those hundreds of young men enabled the College to remain open.

Upon the death of President Reed in 1944, Roland A. Wakefield, head of the College's Department of Physical Sciences since 1933, was appointed president. Wakefield's interest in aviation had taken him during the war from SPC's labs and classrooms to Atlanta where he served as the Civil Aeronautics Administration/War Training Service regional coordinator. He was a key figure in bringing naval cadet training to SPC. He had been back at the College only a few months when he was called on to assume the presidency.

War's end brought the College's largest-ever enrollment as returning veterans took advantage of the GI Bill. Fall enrollments in 1946 and 1947 were 452 and 460, respectively. As Wakefield retired at the end of the 1949-50 academic year, 88 students graduated. He was succeeded by Dean of Men Michael M. Bennett, Class of '37, a faculty member since 1940 and the first president to have been an SPC student.

FACILITIES

When classes began in fall 1927, City School Supt. Lynch had persuaded the Pinellas County School Board to provide the College free space in one unused (and unwired) wing in the then-two-year-old St. Petersburg High School. At the end of that fall term, students and faculty moved from their borrowed space to a former public school at Fifth Street N and Second Avenue downtown, overlooking Mirror Lake. This mid-year move to downtown — into a two-story, white-columned brick building — gave the College much more room. SPC remained at this facility for 14 years, until January 1942, but the quarters grew cramped in short order. It became clear much more space would be needed. In 1931, the City of St. Petersburg pledged an annual grant of \$15,000 to the College, and six years later it donated a 24-acre tract in the city's Eagle Crest section, overlooking Eagle Lake. President Reed initiated a building campaign in 1938 that over time raised about \$100,000 in pledges made by St. Petersburg residents and businesses.

The first permanent new building — housing classrooms, offices, the library and an auditorium named for Captain Lynch — was erected at what is now the corner of Fifth Avenue N and 66th Street. Built with WPA labor, it cost \$91,000; equipment worth about \$100,000 was transferred from the old building, mostly during the December 1941 holiday break. The new building and its contents were valued at a quarter of a million dollars. The first classes there were in January 1942. A small, temporary cafeteria building also was built. These two buildings (plus a limited library first occupied in 1955) constituted the College's total facilities until 1957.

The original building, still in use today, is known as the James E. Hendry Administration Building on the St. Petersburg/Gibbs Campus. Renovated and air conditioned in 1963, it houses administrative offices, conference rooms and faculty offices. More additions and renovations to the building were made in 1991 and 1992. In 1993-94, multimillion-dollar renovations of the other buildings on campus got under way and are continuing. The Lynch Auditorium underwent major renovation and redesign in 2000, to become St. Petersburg College's acoustically splendid, 300-seat Music Center. Greatly enhancing it are the two Steinway concert grand pianos purchased new that summer.

FROM PRIVATE TO PUBLIC

The wave of returning veterans subsided toward the end of the 1940s. The College began losing superior faculty to better-paying positions at other colleges and universities. Demographics pointed to fewer college-age people for at least the next decade. This was the result of low birth rates during the 1930s. Tuition increases necessary to maintain the operation of the College proved counterproductive by further depressing student enrollment. Prosperity was not evident in the College's service area; hence, outside financial support for a private two-year college was extremely difficult to generate.

The Florida Legislature, in 1939, had adopted a law authorizing counties with a population of 50,000 or more to establish a public junior college, with permission of the State Board of Education. Then, in 1947, the Florida Legislature passed the Minimum Foundation Program (MFP), which provided financial support for operation and capital outlay (construction) for Florida public schools. On May 11, 1948, the Pinellas County Board of Public Instruction adopted a resolution accepting the College. SPC converted from private to public status, the second junior college (after Palm Beach Junior College) in the state to make the change. At that time, the Board of Governors of the College dissolved the corporation and released all existing facilities to the school board. L. Chauncey Brown remained president of the Board of Governors, which had consisted of 12 members. The Board became the College Advisory Committee, in accordance with Florida Statutes Chapter 230.0103 and State Board Regulations Chapter 130-8.04, with Brown as chairman. Others on the five-member Advisory Board: Frederick R. Francke, Allen C. Grazier, Robert R. Walden and George W. Wylie, all former members of the Board of Governors.

With the change in status from private to public, the College became part of the school system with the president reporting to the Pinellas County Superintendent of Public Instruction. Shortly after SPC

became public, G. V. Fuguitt retired from that post. Floyd T. Christian was elected to succeed him. During the College's tenure under the County School Board, tuition was lowered.

Although the Florida Legislature authorized creation of the Division of Community Colleges in the State Department of Education in 1957, it was not until July 1, 1968 that it authorized the separation of the colleges from their county school systems. At that time, the College Advisory Committee of five members became the College's District Board of Trustees.

At the state level, the Florida system of 28 community colleges underwent various reorganizations to ensure its efficient and effective operation. In 1983, the Legislature replaced the State Community College Coordinating Board with the State Board of Community Colleges. This preserved local control, represented by local boards of trustees, while at the same time establishing system-wide policies and coordination.

In 2001, as part of a sweeping reorganization of Florida's educational administration, the Legislature replaced both the State Board of Community Colleges and the State University System's Board of Regents with the Florida Board of Education. The Board of Education became the overall governing board for public education in Florida and was charged with maintaining a seamless K-20 system for all Floridians. (However, in November 2002, Florida's voters did reinstate the regents -- renamed the Board of Governors – to "operate, regulate and control" the state university system.) Meanwhile, the Division of Community Colleges of the Department of Education remains as the statewide body to provide leadership and support to Florida's independent public community colleges.

AND IT GREW

EXPANSION OF THE COLLEGE MISSION

Pinellas County experienced unprecedented growth during the 1950s and the College was swept along with it. In fall 1950, the first year of President Michael Bennett's administration, 451 students enrolled; at the start of 1977-78, the last academic year of his presidency, 13,288 students signed on. During his 28-year tenure, enrollment increased almost 3,000 percent. Additionally, during those 28 years, 25,449 degrees were awarded. This compares to 1,450 students who had graduated from 1928-29 through 1949-50 — an increase of more than 1,750 percent.

As part of the Self-Study of 1957-59, the faculty formulated a college philosophy and a set of institution-wide objectives reported in the 1958-59 College Bulletin. Acknowledging its relationship to the county schools, the College noted that its philosophy was contingent upon the Statement of Philosophy of Education for the Schools of Pinellas County, Florida. Moreover, it recognized an expanded responsibility to the individual. The College's mission was stated in the following manner:

St. Petersburg Junior College shares a responsibility with the community, county, state and nation in contributing to the development of the individual student so that he (she) has the opportunity to become a useful citizen, to make worthwhile contributions to society and to live a rich and satisfying life.

The purpose of the College is threefold: (1) to provide community educational facilities for those who may wish to transfer and continue their college education; (2) to provide community educational facilities for those who wish to terminate college work at the junior college level; and (3) to provide the entire community with an educational program based upon its needs and demands.

The catalog listed seven enabling objectives to achieve the College's purpose and one objective describing a method to measure their attainment. These objectives affirmed the commitment to a college transfer program comparable to the lower-division program available in four-year colleges and universities, a terminal college curriculum that would lead to employment, and non-credit lifelong learning courses that would facilitate changing vocational and social needs.

The College rigorously developed its programs to meet its new educational vision for the next 20 years. It was not until the 1978-79 College Bulletin that a major change appeared. While the objectives previously stated were reaffirmed, attention was given to students who might profit from special opportunities, including instruction to overcome deficiencies that might impede college-level work. The following six objectives were identified in the bulletin for the College:

- (1) To provide educational opportunities for those students who will transfer to other colleges to continue their education.
- (2) To provide a variety of occupationally oriented programs for students who complete their career preparation at St. Petersburg Junior College.
- (3) To provide opportunities for students who desire to increase their general education.
- (4) To provide opportunities for cultural enrichment, personal and social development for members of the community.
- (5) To provide special opportunities for students with superior qualifications as well as for students with inadequate skills and backgrounds who need additional training to participate in the general programs of the college.
- (6) To provide, through counseling, guidance that will enable students to plan more effectively for the realistic attainment of their academic and personal goals.

These objectives became the foundation upon which a more comprehensive mission would emerge in the next stage of the College's development.

COLLEGE PROGRAMS

As enrollment grew, the College undertook the development of an expanded curriculum. The School of Nursing was founded in 1954 and Anastasia M. "Nancy" Hartley, R.N., was named director. It offered the first associate degree in Nursing in Florida. In addition to the two-year program in Nursing, occupationally oriented programs in business were developed.

Although Article II of the Application for Charter in 1928 called for "... a department of fine arts; and such other departments as from time to time may be added ..." it was 1956 before SPC became departmentalized. Table 1 shows the first organization of the College.

E. L. Noel, Jr.

In 1957-58, the School of Nursing became the Division of Nursing and continued to be headed by Miss Hartley. By 1958-59, several changes had occurred in department chairpersons, and one new department and a second division had been created. Table 2 shows the 1958-59 college organization.

The 1960s saw continual change in the College's organization. In 1960-61, the Department of Communications was renamed the Department of English and continued to be headed by M. Carolyn Parker. All speech, dramatics and modern language courses were placed in the new Department of Speech and Modern Languages chaired by Roberta M. Buchanan. In January 1965, this department was placed in the Department of Humanities and Peter Mendoza Jr. was named assistant chairman for Speech and Modern Languages.

Also in 1960-61, the Department of Business became the Department of Business Administration. The following year, the Department of Radio, Television and Film became the Department of Radio and Television, chaired by Robert C. Bohan.

The '60s saw the creation of several new departments as well. In 1960-61, the Department of Physical Education was created, chaired by Eleanore M. Gehlen. Joan Catherman was employed in 1962 as director of the new Dental Hygiene Division to plan for the implementation of classes during the 1963-64 year. The Department of Police Administration was created in 1962 with James D. Stinchcomb as chairman. In 1963, Harold V. Hoff was employed as chairman of the new Hotel-Motel-Restaurant Department. Enrollment began in 1964.

Two courses in data processing were offered in 1964-65, and in 1966 the Data Processing Department was established with Wayne Laurents as chairman. Beginning with the 1965-66 academic year, the College instituted a remedial Program of Directed Studies for students with ability, whose educational background evidenced academic weaknesses. Courses were developed that focused on the use of programmed and non-programmed instructional materials to strengthen students' basic skills as well as study skills.

The College became a three-campus institution in Summer 1965. The Clearwater Campus opened on Drew Street, and in south St. Petersburg, the College – at the county's behest -- assumed jurisdiction over Gibbs Junior College (which would become SPC's short-lived Skyway Campus). Clearwater Campus departments activated with its opening are shown in Table 3.

Gibbs Junior College was an all-black institution that started in 1957 as part of a 12-member, state-funded network. It was located on the campus of Gibbs High School in south St. Petersburg and, during its brief existence, served thousands of students from around the Tampa Bay area. Among its distinguished graduates: Walter Smith, who became president of Florida A&M University, and Calvin D. Harris, a provost and vice president at SPC who would be named by Gov. Lawton Chiles in 1997 as the first black member of the Pinellas County Commission. Gibbs Junior College, later SPC's Skyway Campus, was disbanded in 1967 and effectively merged into the College as the crumbling walls of segregation fell. Most of Gibbs' faculty and staff were absorbed into SPC's other two campuses.

In 1967, several organizational changes occurred on the Clearwater and St. Petersburg campuses. In January, the Humanities Department was established on the Clearwater Campus with Donald L. Bisdorf as chairman, and the Communications Division became the English Department. On the St. Petersburg Campus, two assistant deanships were created under the Dean of Instruction -- one for Technical-Related Programs and one for Health-Related Programs. The Hotel-Motel-Restaurant, Radio-Television, Police Administration and Electronic & Mechanical Technology departments were placed under Technical-Related Programs. The Dental Hygiene and Nursing departments, as well as two new programs, Inhalation Therapy and Hospital Care Administration, were placed under Health-Related Programs.

On the Clearwater Campus, Leroy M. DeVane was named assistant dean of instruction for Governmental Services. The Data Processing Department and the new Aerospace Technology program were placed under Dr. DeVane. A new program in Pre-School Education was begun on both the Clearwater and St. Petersburg campuses. Its purpose was to prepare competent instructional personnel for community, private and church-related pre-school institutions and to provide in-service opportunities for pre-school classroom teachers.

Much program expansion occurred during the Bennett administration. The programs on the St. Petersburg and Clearwater campuses at the time of Michael Bennett's retirement (January 1978) are shown in Table 5.

Golden Robert B. Tegarden William R. Rice Joy A. Mitchell

In addition to those shown, the Program for the Deaf and Hard of Hearing had been created at the Clearwater Campus, coordinated by Calvin Harris.

FACILITIES

As enrollment increased, so did the need for construction of additional facilities. A direct appropriation by the legislature in 1954 resulted in the start of new construction. The St. Petersburg Campus acquired a small new library that was occupied in 1955. Five separate parcels of one to five acres were purchased for \$360,742, extending the campus from the original 24 acres to 37.58 acres. The largest of these parcels was the off-campus site that contained the Physical Education building, running track and swimming pool. (The pool was removed in 1999.) Today, the campus has 17 buildings.

In 1953, as a result of requests from people living in the Clearwater area, nine evening classes were offered at Clearwater High School. Eighty-eight people registered for the first session, and course offerings were increased each semester as the needs and interests of northern Pinellas students were identified. During the 1959 fall semester, 113 students were registered in 14 evening classes at Clearwater High School. After considering the current enrollment and projected growth of Pinellas County, the College Advisory Committee recommended a Clearwater campus be established. In July 1959, a request was made to the State Department of Education for permission to plan a campus in north county. After a study of enrollment projections for the next 10 years and a survey by the Department of Education, the plan for a campus in Clearwater was approved, to be located 14 miles north of the campus in St. Petersburg.

In 1962, a tract of land was selected and acquired through purchases and gifts. In 1964, construction began. The 38.3 acres north of Drew Street were purchased from the county for the token sum of \$1; the 34.5 acres south of Drew Street were purchased for \$226,008, with the City of Clearwater paying \$127,000 of this amount. During the second session of 1964-65, 532 students taking 35 evening classes were moved onto the new campus and day classes were held there for the first time. In 1968, a parcel of one-half acre was purchased for \$1,275 for parking; in 1969 the Faith United Church of Christ next door donated a similar parcel, also to be used for parking. The Clearwater Campus today encompasses 73.87 acres and contains 17 buildings. Its long-time provost — Dr. Vilma Zalupski, who retired in 1996 after nearly 16 years at the campus helm — was the first female provost in Florida.

In February 1965, Gibbs Junior College was placed under the supervision of SPC. By summer it had become the Gibbs Campus of St. Petersburg College. In 1966, the campus name was changed to the Skyway Campus. For economic reasons, however, this campus — located at St. Petersburg's Gibbs High School — was phased out of operation in June 1967. In February 1993, SPC's St. Petersburg Campus was rededicated as the St. Petersburg/Gibbs Campus, to honor the contributions Gibbs Junior College, its personnel and its alumni had made to St. Petersburg College and the Pinellas County community.

Although operating three campuses, St. Petersburg College remained a single institution with a central administrative organization. It was felt this one-college concept could best be maintained by having central administrative offices. In July 1966, the Pinellas County Board of Public Instruction purchased a 9.47-acre site in Pinellas Park for this purpose. Construction of two office buildings was started in 1967. These offices were housed in a mid-county location without specific physical identification with any campus. They were occupied in August 1968.

Early in 1970, the mayor of Tarpon Springs approached President Bennett about the possibility of opening a college site there. A study was made and, meanwhile, a special relationship was formed between Tarpon Springs banker-philanthropist A. L. Ellis and city officials. The result: establishment of the Tarpon Springs Center, rent-free to the College, on the second floor of the Ellis Springs State Bank in the fall of 1970, to operate for a provisional three-year period. Later, the city's Rotary Club provided additional space in the Rotary Youth Center. On Oct. 19, 1972, the College purchased a tract consisting of 54.17 acres on Klosterman Road for \$328,000. Seven buildings with more than 21,000 square feet rose on the site and the new Tarpon Springs Center opened in fall 1975. In July 2003, its provost, Nick Billiris, retired after being on the job since the second year of operation. Today the campus contains more than a dozen permanent structures augmented by portable facilities. A major addition to the campus --one of significance to the entire area – was completed early in 2002. The Leepa-Rattner Museum complex houses the Leepa-Rattner Museum of Art, the Arts Education Center and the campus' new, larger Michael M. Bennett Library. The campus area also has grown through the acquisition of 18.6 adjacent acres.

In August 1970 and February 1971, the College purchased tracts of 81.4 and 21.72 acres, respectively, within the city of Seminole. Construction of a new campus began in 1997, under the watchful eye of its newly named provost, Jim Olliver. The initial building — a model of educational technology — opened to students in August 1998. The 24,000-square-foot Technology Learning Center contains computer and interactive-TV classrooms, a multimedia conference room and a 120-computer video station known as the Information Commons. Work on Phase II of the Seminole Campus has resulted in

completion of the three-story C.W. Bill Young University Partnership Center (UPC), which is the College's largest building. It is named for the longtime congressman from Indian Rocks Beach.

The Bay Pines property of 55.21 acres (only 15 acres are above the mean high water mark) was acquired in December 1973 by a quitclaim deed from the federal government. The two buildings on the property have been used in the past by the Pinellas County School District as a learning center for handicapped/disabled students.

A LOOK TOWARD THE FUTURE

President Bennett's Jan. 31, 1978 retirement was followed in May by the appointment of Carl M. Kuttler Jr., J.D., a 12-year administrator who at the time was serving SPJC as Dean of Administrative Affairs. Dr. Kuttler, Class of '60, was the second graduate of the College to be named to the presidency.

COLLEGE MISSION

In 1987, the District Board of Trustees adopted a new mission statement that affirmed St. Petersburg College as a comprehensive, open-door institution with a policy of providing quality educational experiences to a diverse student body and community. The original goal of the College (to prepare students to transfer to four-year institutions) continued, as did the goals previously established regarding the preparation of students for entry into a job or career, the upgrading of students' occupational skills and the strengthening of their basic academic skills. Additionally, the mission statement addressed the need for flexibility and innovation in the way services were provided, the integration of educational goals into lifelong learning, and the encouragement of minority students to utilize the College's available resources and opportunities.

During the 1993-94 school year, a committee was formed to review the College's mission. A new statement of that mission stated that the goals of the College were to:

- Prepare students for transfer to upper division baccalaureate programs at four-year colleges and universities through the Associate in Arts degree program.
- Prepare students for careers requiring postsecondary education through Associate in Science and selected Certificate programs.
- Prepare students for responsible and ethical citizenship, directed interaction in the diverse community, participation in the global society, effective involvement in life activities, and informed decision-making through general education courses.
- Provide under-prepared students with opportunities to achieve entry-level skills in reading, writing and mathematics through the college preparatory programs.
- Provide opportunities to improve employability, enhance career skills, and attain personal enrichment, through courses, seminars, workshops and other continuing education programs offered throughout the community.
- Help students choose appropriate courses, programs, services and activities as well as maximize their opportunity to succeed in college through a comprehensive student development program.
- Contribute to the economic development of the county through technical courses, workshops, programs and services designed to enhance the competitiveness of individuals, businesses and industries in the local, state, national and global economies.
- Contribute to the international education of students through a variety of courses, foreign study tours, faculty and student exchanges, linkages with international institutions and other special programs.
- Serve target populations beyond the borders of Pinellas County through authorized programs and activities that emanate from the institution's history of service and specialized expertise.

(With the College's changeover in 2001 to four-year status, a revised Mission Statement became necessary, but because of the College's continuing commitment to the preservation of its two-year programs, much of the wording remained intact.)

COLLEGE PROGRAMS

Under the Kuttler administration's leadership, Lifelong Learning— a flexible system for providing educational services— was established to meet the growing needs of the community. This program provides credit and non-credit courses, workshops, seminars and College for Kids on the College's campuses and at business and school sites throughout the county to meet existing community needs. Also established was a Corporate Training Center as well as a Dual Credit program for high school students, plus other continuing education classes for job training and fun.

Today, the programs leading to the Associate in Arts degree are the traditional transfer programs with concentrations in, among others, art, arts and sciences, architectural/building construction, business administration, computer science (business option), early childhood development, education, engineering, English/humanities, human services, international business, mass communications, mathematics, music or music education, natural science, nursing, speech/audio pathology, pre-dental, and pre-medical. These programs meet all the requirements of the general education component for the baccalaureate degree.

The College has dozens of Associate in Science programs that prepare students for entry-level jobs. All are listed in the current catalog. Altogether, today's students can choose from more than 330 academic areas of study in the A.A. and A.S. areas.

Additionally, the College offers a growing set of certificate programs that in 1997 expanded more than six fold. Currently, 62 programs are grouped under these five headings: Marketing, Business Tech and Computer Science, Industrial, Health Care, and Public Service.

And, since August 2002, the College has offered bachelor's degrees. Three baccalaureate programs were developed during the year following June 6, 2001, when the College officially became a four-year institution and dropped the "Junior" from its name. The programs became accredited by the Southern Association of Colleges and Schools (SACS) in December 2002, and St. Petersburg College's first four-year graduates – nine of them, all in Technology and Management – received their degrees in July 2003. A dozen additional four-year degrees now are offered, including Banking, which began in August 2006.

In 1989, SPC launched Project Flamingo, a college-wide, comprehensive approach to integrate computer technology in a totally networked, standardized environment. The plan was created to enhance the curriculum and teaching-and-learning process, strengthen the administrative systems and improve campus communications. This multi-year computer project was developed with the considerable help and cooperation of Apple Computer, Unisys and the Digital Equipment Corporation (DEC), who among them contributed more than \$3-million in equipment to the College. Through the project, all of the College sites became interconnected, enabling the majority of faculty and staff to use the new tools of technology to enhance quality and improve productivity. Its major purpose: to promote excellence in teaching and learning by incorporating computers, CD-ROM and laser disk technology into the curriculum as instructional tools, through a college-wide fiber network.

In the wake of Project Flamingo, the College has launched a number of other administrative and academic computing initiatives: Project Horizon; SPIRIT (St. Petersburg Junior College Interactive Registration & Information by Technology); Project Connect, an initiative to upgrade the College's network connections and provide high-speed computers to all college faculty; a new PeopleSoft-driven administrative finance system; and a new Human Resources and Student Registration system using PeopleSoft software to serve the College well into the next millennium. Many of the concepts that began with Project Flamingo have come to fruition in concert with the development of the Seminole Campus, which has as part of its vision all curricula and services being either delivered or enhanced significantly

via technology. A total, strategic revision of the College's Technology Plan began in early 2006 and was nearing completion with the approach of 2007.

FACILITIES

During the first year of the Kuttler administration (1978), SPJC asked the voters of Pinellas County to approve, by referendum, a temporary 1/2 mill in property taxes for college improvements. Despite predictions of failure from some quarters, the referendum passed and the College was able to accomplish some much-needed renovations with new funds. This was the first time in Florida's history a community college received local tax dollars.

In an effort to respond to the growing demand for health care providers and to make more effective use of resources, the College petitioned the Florida Legislature for funding to purchase and remodel three buildings at the former Webb's City retail complex in Pinellas Park. A special \$6.5-million appropriation from the Legislature was obtained and the College acquired 170,000 square feet of floor space for its Health Education Center. In addition, a capital campaign, begun in 1981 and completed in 1986, raised \$3.5-million, including a significant gift from Mr. and Mrs. W.W. Caruth Jr. (for whom the Health Center later was named).

In the summer of 1981, 10 of the existing 11 health care programs were moved into the new center and classes began that August. The 11th program, Veterinary Technology, occupied its building in August 1983. The College since has acquired additional property for parking space, plus two additional properties fronting on 66th Street N. All of the buildings on the 11.63-acre tract have undergone renovation. The library area has been expanded into the newly renovated space and includes the M.M. Bennett Library. A \$400,000 overhaul of the center's parking lot was completed early in 1994. In 1999, major renovations were done to the Vet Tech area and construction was finished on the new \$1.4-million teaching auditorium. The latter also is made available to the public for meetings and other gatherings. A new building to house the college's Orthotics and Prosthetics baccalaureate degree program is under construction.

The expansion of the College's Corporate Training program led to the establishment of the Corporate Training Center in the Carillon office complex north of St. Petersburg in winter 1988. That facility now has evolved into the new Corporate Training Center at the EpiCenter, on 58th Street N just north of Ulmerton Road and immediately accessible to clients in St. Petersburg, Clearwater, Largo and Pinellas Park — with a straight shot to Tampa.

In July 1988, the Allstate Insurance Company turned over the keys to its former regional office facility in south St. Petersburg to the College. The 131,344-square-foot building on 20.85 acres was valued at more than \$11-million. At the time, it was the largest property gift ever made to a Florida institution of higher learning, and the largest ever to a U.S. community college. Extensive renovation concluded in 1991. The Allstate Center houses the College's Southeastern Public Safety Institute (law enforcement programs). The Institute's state-of-the-art firing range was completed in 1995. Next door to Allstate, the former American Heart Association building was purchased in 1998 to house offices for the Florida National Guard, which is engaged in a number of programs at the center. Also housed at Allstate is the National Terrorism Preparedness Institute, which gained added relevance following the attacks of Sept. 11, 2001.

EXPANDED HORIZONS

In January 1987, St. Petersburg College played host to the first "Roundtable on Institutional Effectiveness." A dozen national experts on higher education and community college administration, led by former U.S. Secretary of Education Terrel Bell and Director John Roueche of the Community College Leadership Program at the University of Texas/Austin, met to develop future directions for SPC.

Within a year, the College held the second of these conferences. The "Roundtable on Educational Partnerships" brought together leaders from national organizations representing American post-

secondary education. Together they analyzed the ways SPC had successfully addressed many of the education and training issues facing the local community.

The second roundtable led to a request from William H. Meardy, executive director of the Association of Community College Trustees (ACCT), for material relating to the College's presentations at the conference. Administrators, faculty and board members responded, providing 46 pages of information about SPC, its programs and accomplishments. Published in the *ACCT Journal*, this marked the first time an issue of that publication was devoted exclusively to a single institution. Director Meardy wrote: "Those of us who were expecting a 'typical' community college found out our expectations were wrong. St. Petersburg Junior College is anything but 'typical.' Words such as 'outstanding,' 'amazing,' 'innovative,' 'creative,' 'first class,' 'exemplary,' 'trend setting' and 'community centered' describe SPJC, but 'typical' it is not. What we found was a college replete with such an abundance of human services and educational programs that we were awed."

Ten years later, in November 1998, a third roundtable was convened. Meeting at the Bilmar Beach Resort on Treasure Island, the conferees turned their attention to "Focus on Learning: Planning the Community College for the 21st Century." Implicit in the theme was the idea — the reality, actually —that faculty must come to regard themselves as learning guides and abandon their old image of teaching authorities. Among the presenters were Denver Community College President Byron McClenney, Vice President Kay M. McClenney of the Education Commission of the States, North Seattle Community College's Rita Smilkstein, prominent Florida architect David Michael Harper and Visions Inc. President James Riskowski, head of one of the nation's leading educational technology consultancies.

In 1982, Tom Gregory (a future chairman of SPC's Board of Trustees, who earlier had been chairman of the Florida Ethics Commission) and President Kuttler were attending a national conference of college trustees. They heard one of the speakers – Dr. Paul Ylvisaker, former Dean of Harvard's Graduate School of Education – outline the rationale for an Applied Ethics program. They introduced the idea to the Board of Trustees, who approved the creation of the College's Applied Ethics program. In January 1985, the first classes convened. Since that time, more than 100,000 SPC students have taken an ethics course. Dr. Ylvisaker, visiting in 1987, was able to see firsthand, and affirm for faculty and staff, the program he had inspired. The basic course, *Studies in Applied Ethics*, was set at three hours and was required for all students seeking A.A. degrees. It was one of the first such courses in the country to be required for graduation. It since has become required of A.S. degree candidates as well.

Finding no satisfactory applied ethics text, the College authorized the writing of one. In July 1993, Ethics Applied -- written by 17 specially commissioned authors from around the country, including three of our own faculty -- was published by McGraw Hill. This was followed in 2000 by another text designed to meet the growing business ethics market -- Business Ethics Applied. The original text, Ethics Applied, is now in its fifth edition, and the major revisions are the work of four College faculty. Business Ethics Applied, Edition 3.0 was released in 2006. The second edition of our newest text, Educational Ethics Applied, was released in January 2007. Published by Pearson Education, SPC's ethics texts are marketed nationally by Pearson Education and Prentice Hall, and are used by a number of colleges and universities throughout the country. The Applied Ethics program has expanded to include 12 courses, taught by 10 full-time faculty members and 25-30 adjunct instructors.

The College's Applied Ethics Institute was established in 1999. The Institute's mission is to provide Applied Ethics education and resources to SPC students, to local businesses and professional organizations, and to our community at large. Current projects include a partnership with Pinellas County Schools for character education initiatives, a partnership with the Florida Regional Community Policing for law enforcement Ethics curricula and training, ongoing community Ethics Forums focusing on timely ethical issues, a statewide online ethics course for Florida K-12 teachers developed in cooperation with the Florida Department of Education, and SPC Ethics Bowl teams competing regionally and nationally. Particularly supportive of the Institute is its Board of Advisors, which includes the Mayor of St. Petersburg and other community leaders. SPC's Applied Ethics Institute is an engaged institutional member of the Association for Practical and Professional Ethics and of the Center for Academic Integrity.

The College's Central American Scholarship Program (CASP), established in August 1987, welcomed 16 students from modest backgrounds as its first class. The two-year program, which stayed in place at the College for a dozen years, gave students the academic and vocational education needed to help improve their families' standard of living on their return. While here, each student lived with an American family, which greatly helped them adapt to life in the United States. Initiated by Georgetown University, CASP was funded by the U.S. Agency for International Development.

In the 1980s, the College and the American Association of Community and Junior Colleges worked together to offer the first national conference on "The Role of the Community College in Shaping the Nation." Held at the Jimmy and Rosalyn Carter Center in Atlanta, it brought 200 educational administrators and public officials together at the research/conference complex to discuss national and international issues as they relate to the education of the nation's college students. In a message to the gathering, former President Carter noted that better preparation of students holds the key to the United States regaining its competitive edge in world markets and adapting to the evolving global economy.

In 1989, former U.S. Secretary of Education Terrel Bell accepted the College's invitation to chair its FACET Commission (Focus on Access, Community and Excellence in Teaching). He agreed to work with the University of Texas' Dr. John Roueche in guiding the College's faculty, staff and students. The purpose of this project was to insure continued educational excellence into the next century. Over several months, commission members met to discuss teaching effectiveness, evaluation of teaching performance, recognition of teaching excellence, and professional development. Their published report provided invaluable direction for the College.

In October 1989, the College and the American Association of Community and Junior Colleges co-convened their second leadership seminar, at the Gerald R. Ford Museum in Grand Rapids, Mich. "Workforce 2000" looked at the future economy in terms of the people and forces that will make it function. Included in the topics discussed were the role of technology, the importance of a quality workforce in a global economy, and the blending of enterprise and education.

In the international arena, as the breakup of the Soviet Union brought about profound changes in the structure of institutions within Russia, SPC leaders envisioned a joint educational venture between the College and the Russians. In June 1990, President Kuttler and the president of Leningrad State University exchanged visits. (The project grew out of conversations the previous spring between Dr. Kuttler and a Leningrad State law professor, Valery Musin, who was visiting Dr. Kuttler's alma mater, Stetson College of Law in St. Petersburg. Musin resided for a time at Dr. and Mrs. Kuttler's home.)

Dr. Kuttler spent two weeks in Russia in fall 1990, and served as honorary rector of Leningrad (now St. Petersburg) State University. Among the many notables he met was St. Petersburg (nee Leningrad) Mayor Anatoly Sobchak, a leading political figure in the post-Gorbachev era. The Russians reciprocated that fall with a delegation led by Leningrad State University President Stanislav P. Merkuriev, who was named SPC's honorary president, and Mayor Sobchak. The Russian entourage met with many educational, civic and business leaders during their U.S. visit.

In June and July of 1991, Dr. Kuttler visited Baoji Teachers College in Baoji, Shaanxi, China. Dr. Yang Yijun, the college's president, returned that visit to St. Petersburg College in March 1992, and was named honorary president. SPC Communications Instructor Jeff Hooks and his family spent a year in residence at Baoji, and other Chinese have visited here since.

At the invitation of the State Department's U.S. Information Agency, Dr. Kuttler returned to Russia in May-June 1993 to assist the Russians in setting up a national community college system to help speed economic reform and development. His efforts resulted in his being named "Father of the Community College System in Russia," by that country's national education leaders. While there, he also arranged for future visits and exchanges on the part of educators and other representatives between Russia and the College. President Kuttler was chairman of the Advisory Committee for the "300-100" festival to commemorate the 300th birthday of St. Petersburg, Russia and the 100th anniversary of the 1903 reincorporation of St. Petersburg, Fla. Among their goals were the acquisition of Russian artifacts and

recruitment of Russian art restorers for the Florida International Museum, plus creation of a "Russian Cultural Center" there. In addition, the mayor and the College president have invited Russian President Vladimir Putin to visit. (Putin is friends with Dr. Kuttler and, in fact, mentioned him and the College as he spoke at St. Petersburg University during a May 25, 2002 news conference with President George W. Bush that was aired on CNN.)

HONORS, GIFTS, OUTREACH RISE TO NEW PLATEAUS

President Kuttler's national honor in Russia (as "Father of the Community College System") was the first of several unprecedented high honors for the College and its leaders. SPC and the president were presented in February 1997 with the Werner O. Kubsch Award for Achievement in International Education, one of community college education's most coveted commendations. In 1998, Dr. Kuttler was auspiciously honored twice by the Association of Community College Trustees — first on the Southern regional level, and then nationally, as ACCT's "Chief Executive Officer of the Year." This was, in effect, recognition of him as the No. 1 community college president in the United States.

District Board of Trustees Chairman Joseph Lang also brought credit to the College when, in 1993, he received the "Outstanding College Trustee" award from the Florida Association of Community Colleges. The next year, he was given the Association of Community College Trustees' "Trustee Leadership Award" for the southern United States. Three years later, Lang moved up a level. When former DBT Chairman Philip Benjamin retired in 1997 from the Florida Board of Community Colleges, which he had served as charter chairman 14 years before, Lang was appointed by the governor to succeed him. In November 1999, Lang assumed the board chairmanship for a one-year term. He remained on the state board until its dissolution in 2001. He now serves the College as attorney for the Board of Trustees.

In mid-1996, Tarpon Springs retirees Allen and Isabelle Leepa decided SPC was the institution to which they would make a remarkable donation: the Leepa-Rattner Art Collection, plus a gift of \$2.5-million, to go toward establishment of the Leepa-Rattner Museum of Art at the Tarpon Springs Campus. The collection, numbering thousands of pieces, is mostly of abstract expressionist art by Allen Leepa and his late stepfather, figurative expressionist Abraham Rattner, with other artwork by Esther Gentle Rattner, Allen Leepa's mother. But it also contains works by Picasso, Rouault, Chagall, Hans Hofmann and other greats who were friends with Rattner in Paris in the 1920s and '30s. The value of the collection has been put at \$20-million. The gift earned recognition from, among others, the Florida Cabinet, the Legislature, Fortune and Newsweek magazines, and Microsoft's Slate 60 online magazine. Groundbreaking for the 58,000-square-foot museum complex — which includes the M.M. Bennett Library and the Fine Arts Education Center — was Nov. 9, 1999. Sadly, Isabelle Sutton Leepa died July 19, 2006.

The Leepas' gift generated a rise in philanthropic interest in SPC. One notable contribution, made in 1998, was a \$1.9-million collection of rare documents, historic diaries, first editions, television scripts and other items gathered over half a century by Wendell Ware, SPC Class of '39. The material is undergoing computer entry into the College's library system to make it universally available to students. Ware, now retired in California, was a postwar pioneer in the field of microfilm and microfiche.

August and September 1997 marked additional milestones in the life of the College. At summer commencement, the first three graduates of the Veterinary Technology Online program received their degrees after completing their studies on the Internet from their homes in Leon, Sarasota and Palm Beach counties. (Other students in the program are scattered across Florida, the U.S. and beyond.) That September, SPC rounded out seven decades of service to the community in typical fashion — by further committing to the future. A belated 70th birthday party with a 1920s theme took place in early November on the quad of the St. Petersburg/Gibbs Campus. Hundreds of Pinellas residents attended, including a member of the charter graduating class of 1929, Helen Ormsby Day of St. Petersburg. She since has died –on Feb. 9, 2004, at the age of 95 – and was believed to be the last surviving charter graduate.

Nov. 10, 1998, two notable events occurred. That afternoon at the District Office, the organizational meeting of the Pinellas County Millennium Celebration Project convened. The College was asked to serve as the project's coordinating agency at the request of the Pinellas County Commission. (Commission Chairman Barbara Sheen Todd and Dr. Kuttler were co-chairmen of the celebration project, which extended to the end of 2000 and included the staging of more than 300 events for Pinellas residents.) Earlier in the day, a news conference took place at the Florida International Museum in downtown St. Petersburg to announce that at SPC's and Dr. Kuttler's behest, Robert L. White of Baltimore had agreed to bring his private collection of John F. Kennedy artifacts — said to be the world's largest — to the museum. It went on display in November 1999. The museum also agreed to exhibit part of the College's Leepa-Rattner Art Collection in the future. In tandem with all these developments, the College plans to develop a degree program in Museum Studies that will coordinate with numerous area museums. Much of the success of this venture, however, rides on public and private support.

In late 1998, the College was notified by the American Association of Community Colleges that William Haddad, Class of '51, had been named to receive one of AACC's "Outstanding Community College Alumni" awards for 1999. Haddad, CEO of MIR Pharmaceuticals in New York, was a co-founder and assistant director of John F. Kennedy's Peace Corps, and was assistant director of the Office of Economic Opportunity for President Lyndon Johnson. Earlier in his career, he was an award-winning New York journalist. Before coming to the College, he served as an ensign in the Merchant Marine during World War II and, at age 16, was the war's youngest commissioned officer.

In the final five months of 1998, an unprecedented series of events occurred. The College opened three new learning sites: the new, high-tech Seminole Campus, on wooded property SPC began acquiring more than 30 years before; a "co-campus" on the downtown site of the University of South Florida St. Petersburg; and SPC's Corporate Training facility in new quarters in the ICOT Center business park on Ulmerton Road. Less than a year later, another new learning facility was opened in Pinellas County's STAR (Science, Technology and Research) Center in Largo. Then in 2005, all but the Seminole Campus relocated: Corporate Training and the STAR facility moved their operations to the EpiCenter, and the College opened its own Downtown Center in St. Petersburg.

In the fall of 1999, a remarkable string of honors for College alumni began, linked to the Florida Association of Community Colleges (FACC) and its LeRoy Collins Distinguished Community College Alumni Award for FACC Region IV. SPC alumnus Donald Altieri, president of South Piedmont Community College in North Carolina, was named the winner in 1999. Now retired, he is a member of the Class of '55 and a former Associate Vice President of Educational and Student Services at the College. The following year, the award went to St. Petersburg attorney Ed Turville, Class of '34, a former (non-playing) U.S. Davis Cup captain, a past president of the U.S. Tennis Association, and the founder and charter president of the Florida Tennis Association. Turville, who died in August 2003 at the age of 88, served as SPC's college attorney for 32 years (1950-1982). In 2002, SPC won the award for the third time in four years. It went to St. Petersburg attorney Joseph H. Lang, Class of '59. President emeritus of SPC's Board of Trustees (on which he sat for nearly 18 years, more than 10 of them as chairman), Lang also is a past chairman of the Florida Board of Community Colleges. As noted earlier, he received Outstanding Trustee honors on the state level in 1993 and on the regional level (southern United States) in 1994.

Lang received his Collins Award at the FACC's annual convention in November in Kissimmee. Honored at that same 2002 convention was President Kuttler, who received the President's Award for Professional Excellence from the association. Another recipient at that same meeting was W. Richard "Dick" Johnston, veteran member and twice chairman of the SPC Board of Trustees (and current vice chairman). He was the 2002 winner of the FACC's Florida Trustee Award. He went on to win the regional award for the southern United States. Besides his 14 years of BOT service, Johnston has been a member of Florida's Postsecondary Education Commission, Community College Coordinating Board and Postsecondary Education Planning Commission – plus he served on high-level selection committees that chose a new Florida Community College System executive director and two University of South Florida presidents.

In 2004, the College again produced the winner of the Collins Award. Wendell Ware, Class of 1939, became SPC's fourth Region IV titleholder in six years. The 85-year-old World War II veteran pioneered in developing practical uses for microfilm, microfiche and ultrafiche in business, industry and education. Ware later became a generous benefactor to SPC, and in 1999 donated his collection of rare documents to the College. It has been appraised at more than \$1.5-million. Ware's M. Carolyn Parker Collection is named for his high school English teacher, who later taught at the College. Earlier Collins Award winners from SPC were astronaut Sam Durrance (Class of '67) in 1995 and renowned oceanographer/author Sylvia Earle (Class of '53) in 1997.

Other prominent SPC alumni include astronaut-in-training Nicole Passonno Stott, '82; New York ad executive Cliff ("Where's the beef?") Freeman, '61; World War II French Underground heroine Virginia Roush D'Albert Lake, '29; Seminole Community College President Ann McGee, '68; former Congressman William C. Cramer, '43; former Florida Commissioner of Education Doug Jamerson, '77; classical pianist/composer Stephen Montague, '63; and former Florida Secretary of State Sandra Mortham, '71. Award-winning Hollywood actresses Carroll Baker (*Baby Doll*) and Barbara Bosson (*Hill Street Blues*) also attended SPJC briefly, as did Major League All-Star Howard Johnson.

Perhaps the College's most famously creative alumnus is Robert G. "Bob" Carroll Jr., who was one of the creators of the *I Love Lucy* television show and one of its two principal writers during its 1951-57 run. This earned him entry into the Television Academy Hall of Fame. Carroll attended the college for one year, 1940-41, before his family moved to California. He returned to SPC in May 2005 to receive the Outstanding Alumnus Award at graduation. He also was inducted into the college's Hall of Distinction. Other 2005 inductees were William R. and Hazel Hough, who months earlier had bestowed a gift of \$2-million to SPC to be used to help bring the St. Petersburg Downtown Center to completion later in the year; and Don Sullivan and his wife, Bretta, both generous contributors to SPC. Don Sullivan also was the Florida state senator who drove the legislation that enabled SPC to convert to four-year status. Later, he was SPC's vice president of Economic Development and Innovative Projects.

The Hall of Distinction was established by the SPC Foundation and the Alumni Association the year before, in 2004, to give special recognition to college-connected individuals who have contributed in especially noteworthy ways to their professions, their communities and/or their alma mater. The inaugural induction took place the night before May graduation. Charter inductees were Sylvia Earle, Class of '53, the first woman aquanaut, internationally known oceanographer and marine environmentalist, and record-setting deep-sea diver; and Vivian Schafer, who along with her late physician husband established the Dr. and Mrs. Walter L. Schafer Distinguished Teaching Chair in Nursing at SPC in 1999.

Also inducted that first year were all the previous winners of the Alumni Association's Outstanding Alumnus Award, plus the following five individuals: Nadine and Dan Carlisle (a former chairman of the SPC Foundation Board), who founded the Nadine and Dan Carlisle New Life Education Fund at SPC; Thomas H. Gregory, former SPC Trustee, former Florida Ethics Commission chairman and member of the Foundation Board; Helen K. Leslie, high-achieving business executive and former Foundation president; and Thelma P. Rothman, co-founder (with her late husband, Maurice) of Kane's Furniture, noted area philanthropist and longtime major supporter of SPC. The next morning, Dr. Earle became the 24th recipient of the Outstanding Alumnus Award. That occasion also featured the first bachelor's degree recipients from the colleges of Education and Nursing.

Hall of Distinction inductees in May 2006 were former State Sen. Henry Sayler and his wife, Wyline; Derby Lane Vice President Richard Winning; and the 2006 Outstanding Alumnus Award-winner, Walton D. "Wally" Dutcher Jr., Class of '66. A quadriplegic since a 1956 diving accident while in the Navy, Dutcher is a 50-year advocate of various causes for the disabled, founder of the Caring & Sharing Center for Independent Living Inc. and a designer of "accessible houses" for the disabled. The Saylers have been notable contributors to the College, and Winning and Sen. Sayler have served on the Foundation Board. Winning also has exercised leadership in SPC's Athletic Boosters. In 2007, The Hon. Susan Schaeffer, a former chief justice of the Pinellas-Pasco circuit bench was named Outstanding Alumna and inducted into the Hall of Distinction. Also inducted were bank president, Ken Cherven, and The Hon. Walter L. "Skip" Schafer, Jr. Cherven and Schafer have served as chairmen of the SPC Foundation.

PROGRESSING WITH THE NEW CENTURY

It was announced in January 2000 that SPC was one of eight two-year colleges nationwide to receive a \$255,000 E-Commerce grant from Microsoft Corp. SPC became partners with Microsoft in creating a groundbreaking Associate in Science degree in E-Commerce, plus eight certificate programs, to meet the needs of the corporate and industrial community in the Tampa Bay area. The impact of the College on the state level was exemplified by the announcement that an SPC-produced CD-ROM, *AfterMath: Lessons in School Safety,* has made its way into Florida's middle schools, with a video in development as followup. SPC's Florida Regional Community Policing Institute is producer of both. On the national level, SPC won a top award from CADCA, the Community Anti-Drug Coalitions of America, for the assistance the College has lent in furthering CADCA's mission in support of anti-drug efforts.

September 2000 saw completion of an historic construction project on the St. Petersburg/Gibbs Campus: renovation of the Lynch Auditorium, now housed inside a new College Music Center. After 73 years, SPC gained an acoustically correct hall for its music programs plus an impressively renewed venue for campus and community meetings. Adding luster: the two new Steinway concert grand pianos onstage, paid for with music laboratory fees and donations from friends of the College. The pianos were followed by the installation onstage, in 2002, of an imposing, German-made Heissler pipe organ. It was made possible through the generosity of longtime Organ Instructor Robert Setzer and other friends of the College. All this marked a new day for SPC's music programs.

The June 6, 2001 signing (by Gov. Jeb Bush) of legislation that turned this institution into a four-year college was arguably SPC's most historic development since its founding in 1927. The lawmakers most responsible were Sen. Don Sullivan, R-Seminole, the legislation's author, and Rep. Gus Bilirakis, R-Tarpon Springs, who guided the issue in the House.

SPC and its Board of Trustees ("District" was dropped from the name) remain part of the Division of Community Colleges, because the College is charged with maintaining – and all along has had every intention of continuing – its mission as a two-year institution. But in accordance with its now-expanded mission, the summer of 2001 found SPC gearing up for the awarding of four-year degrees as well, in Education, Nursing, and Technology and Management. Tom Furlong, who was deputy executive director of the state Division of Community Colleges, was hired as SPC's senior vice president in charge of Baccalaureate Programs and University Partnerships. Accreditation of the baccalaureate programs was acquired with notable speed from the Southern Association of Colleges and Schools in December 2001.

By the start of the 2006-07 school year, SPC's baccalaureate programs had expanded to 15: six in Education, plus Nursing, Technology Management, Orthotics & Prosthetics, Dental Hygiene, Public Safety Administration, Veterinary Technology, International Business, Paralegal Studies, and the baccalaureate in Banking that began in August 2006.

Fall of 2001 brought enrollment hikes not seen in a decade – more than six percent overall above one year before – and administrators cited several reasons besides the slowed national economy. Among them: the dropping of "Junior" from the College's name; the move to four-year programs; and the expansion of the SPC curriculum (most notably online courses and certificate courses) aimed at nontraditional students. Enrollment at the University Partnership Center, meanwhile, climbed 131 percent over the year before, from 650 students to 1,502.

The College was involved in the aftermath of the Sept. 11 terrorist attacks on New York City and Washington, D.C. Four representatives from SPC's National Terrorism Preparedness Institute at the Allstate Center were sent to the World Trade Center site to learn more about the relief and rescue efforts there. They worked with four NTPI adjunct instructors to produce a 90-minute training video that was sent to an estimated 5.5-million first responders across the country.

More than 70 years of tradition took a slight turn in October 2001 as the Board of Trustees, following up on the dropping of "Junior" from the College's name, chose a new SPC mascot, logo and seal. The

team name of "Trojans" was dropped in favor of "Titans," while the logo was overhauled to reflect that change in double-gender fashion (silhouettes of a male and female Titan). The College seal was altered only slightly, the major change being the absence of "Junior" across the top of the circular emblem. That same month, the College's Web address also changed – from www.spjc.edu to www.spjc.edu to www.spjc.edu.

The much-anticipated complex at the Tarpon Springs Campus, housing the Leepa-Rattner Museum of Art, Fine Arts Education Center and Michael M. Bennett Library, opened in January 2001. A guest speaker for the Jan. 22 dedication had to be secured at the last-minute when Florida's first lady, Columba Bush, was unable to attend. Her substitute was most appropriate: Robert Sidney Martin, acting director of the National Endowment for the Arts, and director of the national Institute of Museum and Library Services. Others on hand included Allen and Isabelle Leepa, whose more-than-\$20-million gift to the college enabled the complex to become reality, and Tarpon Springs architect Edward C. Hoffman Jr. Later in the year, his unique maritime design of the building won him and his firm the H. Dean Rowe Award for Architectural Excellence from the American Institute of Architects' Tampa Bay chapter.

In Spring 2002, the men's basketball team, under Head Coach Earnest Crumbley Sr., won the state championship, the first in a major sport for the College. The Titans advanced to the national tournament in Hutchinson, Kan., where they posted a 1-2 record and ended up ranked No. 9 in the nation. The forensics team, coached by Jim Mignery, had a banner season as well, and three of its members qualified for the national tournament. The conference-champion baseball team, coached by Dave Pano, saw nine of its players selected in the 2002 Major League Baseball draft (along with seven of the eight high school or transfer players Pano had recruited). The Math League team, coached by Karen Emerson, was No. 1 in the state and third in the Southeast. In the eight competition categories at the Florida Community College Music Symposium, SPC students won two of them and received honorable mention in two others. The Eta Nu chapter of Phi Theta Kappa on the St. Petersburg/Gibbs Campus – already PTK International's most honored chapter -- was named first runner-up as Most Distinguished Chapter worldwide. Apollo Award nominee Nadine Kapoun of the Tarpon Springs Campus made the Academic All-America second team. And, in another first for the College, a former SPC student, Pavan Cheruvu of Duke University, was named a Rhodes Scholar.

When President George W. Bush came to Pinellas County for a speech March 7, 2002, attention was drawn to two individuals from SPC. The sign language interpreter chosen to sign for Bush's speech was Vicki Fales, lead interpreter for the Office of Services for Students with Disabilities. In his speech, Bush praised the quick action taken by Pinellas Park Police Officer Roxanne Hunt in August 2001, when she was a member of AmeriCorps Pinellas (which was administered by the College until it was phased out in December 2005). Working with the Largo police at the time, Hunt was attending a bicycle rodeo and saved a young boy who was choking on a hot dog.

National Library Week 2002, the third week in April, had special significance for the College. That Monday, April 15, SPC announced plans to partner with the City of St. Petersburg in building a joint-use library (\$8.7-million, 50,000 square feet) on a site overlooking Eagle Lake on the St. Petersburg/Gibbs Campus. Four long-standing buildings had to be razed: the Student Center and Food Services, the bookstore, and the Ethics and maintenance buildings. The new West St. Petersburg Community Library (which held its grand opening in May 2005) replaced the existing campus library and a nearby library jointly administered by the city and the Pinellas County School Board. That Tuesday, April 16, ground was broken at Seminole Campus for the joint-use library (\$10-million, more than 52,000 square feet) being built by the College and the City of Seminole to serve SPC students and community residents. (At the grand opening of the Seminole facility in August 2004, more than 3,000 persons attended, and six months later, the name of State Sen. Dennis L. Jones of Treasure Island was added to the library to acknowledge the legislative support he lent to its development; a special guest was State Senate President and SPC alumnus Jim King of Jacksonville.) Both the new libraries are highly computerized and provide special accommodations and features for all age groups.

A major expansion of the Tarpon Springs Campus took place in May 2002 when the Legislature approved funds for the purchase of 16.6 adjoining acres. The site, containing a closed warehouse, extended the campus eastward and gave it 800 feet of frontage along U.S. 19. The factory floor provided

100,000 square feet of usable space, and could accommodate a second floor. The purchase also included 28,000 square feet of office space, plus 642 parking spaces. In all, the 70-acre campus grew by nearly 24 percent when it added the next-door tract. Several College operations then moved to the site: The central offices of the Baccalaureate Programs, Central Records, Payroll, Institutional Research, the College warehouse and Human Resources (in part). In August 2003, additional offices and classrooms of the SPC College of Education occupied a newly built-out portion of the building. In 2007, a book store and food service facility opened in the building.

At the 2002 Fall Faculty, at Palm Harbor's Westin Innisbrook Resort, SPC's instructional personnel gathered for the first time as a four-year team. They also were observing another historic occasion: the start of the College's 75th Anniversary Year (which officially commenced Sept. 14, the date St. Petersburg Junior College opened in 1927). Then the 2002-03 school year started with a bang as figures reflected a 10.5 percent increase in lower-division enrollment – the largest such increase since at least the 1980s. The jump was attributed to a number of factors: the change to four-year status, stepped-up marketing, the availability of more online courses and the new baccalaureate programs, a plethora of positive news stories about the College during the past year, and the slowed economy. Meanwhile, the baccalaureate programs' initial enrollment – a total of more than 350 students -- also exceeded expectations by nearly 20 percent. In addition, enrollment at the University Partnership Center climbed by more than a third, prompting forecasts of 2,000 students there before the academic year was over.

In late September 2002, the Board of Trustees approved plans for a major move in concert with the Pinellas Board of County Commissioners. The plans called for the College and several county offices (including Pinellas' Economic Development division) to share a large (nearly 180,000 square feet), totally remodeled, joint-use structure located in Largo's ICOT Center, on 58th Street north of Ulmerton Road. This \$32-million "EpiCenter" includes a Collaborative Labs facility for the bay area's business/industrial community that today provides advanced resources for professional development, strategic planning and job training (including mastery of software), plus specialized seminars and conferences. Occupancy of the EpiCenter and its Services building two doors north was completed in spring 2005. Since then, three more buildings have been purchased in the area and several other departments, including Corporate Training and Library Administration, have moved to ICOT. More are coming. The College administration's vacating of the District Office marked an end to almost 37 years of residency there. It was sold to the Pinellas County Schools for use as a school for students with special needs.

As the College launched its year-long 75th Anniversary celebration in September 2002, State Sen. Don Sullivan came on board as a member of the administration. With his 10-year legislative career ending due to term limits, he expressed a desire to President Kuttler to continue working for the cause of education rather than resume his medical practice as an orthopedic surgeon. Sullivan, the legislative "father" of the bill that transformed the College into a four-year institution, was appointed vice president of Economic Development and Innovative Projects, and served until his retirement in summer 2005. Before his departure, he inspired the college to establish a charter high school, where motivated students can receive an associate's degree at the same time they graduate from high school. The school, St. Petersburg Collegiate High School, received "A" ratings from the state its first two years in operation. For school year 2005-06, it was ranked fifth in the state by the Florida Department of Education and No. 1 in Pinellas County. The ranking is based on high standards achieved and learning gains made in reading, writing and mathematics. Sullivan was succeeded by Clearwater Campus Provost Stan Vittetoe.

The College's December 2002 graduates made history when they became the first graduating class to march at Tropicana Field. After reviewing and comparing costs, facilities and convenience between Tropicana Field and Bayfront Center, where most graduation ceremonies took place for many years, the Board of Trustees decided to have most commencements at the domed stadium for the foreseeable future.

In 2002, Ken Burke, SPC Class of '79, became the first member of the College's Board of Trustees elected to the board of ACCT – the Association of Community College Trustees. In February 2003, Burke was elected secretary-treasurer of the national group at its annual meeting in Washington, D.C. Just

seven months later (by which time he had been elected College board chairman), he was elevated to vice chairman of ACCT. He assumed the chairmanship in September 2005 at ACCT's convention in Seattle.

Burke's ACCT rise calls renewed attention to the College's reputation for being a "training ground" for high-level achievement. More than 20 future college or university presidents have come from SPC via its student body, faculty and/or administration. Besides Carl M. Kuttler Jr. (Class of '60) and Michael M. Bennett (Class of '37), they include John Palms (student in 1953-54), who became president of Georgia State University and then the University of South Carolina, and E. Ann McGee, Class of '68, president of Seminole Community College. One even has gone full circle: Robert W. Ramsay was Dean of Academic Services on the Clearwater Campus, left in 1984 to become president of North Florida Junior College, and later became chancellor of the San Antonio (Texas) Community College System before retiring. Ramsay returned to SPC in 2003 as provost of the Tarpon Springs Campus.

In 2003, an SPC student was named to the *USA Today* Academic All-America First Team. The honor went to Amanda Green, a sophomore pre-engineering major on the St. Petersburg/Gibbs Campus with a 3.9 GPA. Green was one of 20 community college students from around the country who were named to the first team. Green was a 10-year Navy veteran with five years of active duty and five in the active reserves. In 2007, Elona Rrapo, won the same honor. A native of Albania, she and her parents made it to the United States by winning a lottery in that country. A student on the Clearwater Campus, she graduated with a 4.0 GPA. Her goal was to attend Harvard Medical School.

Co-sponsor of the Academic All-America awards with *USA Today* is Phi Theta Kappa, which has five chapters at SPC – at the St. Petersburg/Gibbs, Clearwater, Tarpon Springs and Seminole campuses and at the Caruth Health Education Center. Eta Nu chapter (SP/G) and Tau Zeta (Clearwater) are among the most honored chapters in PTK, the scholastic honorary for two-year colleges, with 1,200 chapters worldwide. More luster was added to the College's links with PTK in the spring of 2004 when Eta Nu was named Most Distinguished Chapter for an unprecedented fifth time. Tau Zeta also was cited, as one of the society's top 100 chapters.

In a ceremony at the Tarpon Springs Campus in April 2003, SPC's College of Education and the building in which it is housed were named for the Bilirakis family. Gov. Jeb Bush led a crowd of more than 700 persons in honoring the Bilirakises for their longstanding SPC support and loyalty. U.S. Rep. Mike Bilirakis, R-Palm Harbor, vitally promoted SPC's efforts to acquire four-year status. His wife, Evelyn, serves on the SPC Board of Trustees and the Leepa-Rattner Museum of Art board of directors. Their son, State Rep. Gus Bilirakis, directed a version of the bill that allowed the College to offer baccalaureate degrees through the House of Representatives. He has since been elected to the U.S. Congress. Another son, Emmanuel Bilirakis, M.D., is an SPC honors graduate.

Also in April 2003, President Kuttler signed a new four-year contract that will make him the College's longest-serving president. In July 2006, that contract was extended through December 2009.

Earlier in April 2003, Kuttler visited Russia's St. Petersburg University at the invitation of Russian President Vladimir Putin to take part in a symposium on international law that included German Chancellor Gerhard Schroeder and French President Jacques Chirac. Kuttler was one of two-dozen special guests invited to offer their views. Kuttler and Putin are friends from the 1980s and '90s, when Kuttler was making repeated visits to Russia and Putin was an official in the international relations department of St. Petersburg University. In June 2004, the Russian president arranged for Kuttler to be appointed as an honorary consul of the Russian Federation. This enables Kuttler, working through a Federation office in Pinellas County, to officially participate in the seeking of mutual solutions to differences between the United States and Russia. Then, in September 2005, Kuttler was invited to join the Board of Advisers of the Dmitri Shostakovich St. Petersburg Academic Philharmonia, an affiliate orchestra of one of the world's leading symphonies.

The fall of 2003 brought initial creation of two important additions at SPC: the charter school (St. Petersburg Collegiate High School) and an honors college. Both began operations a year later, in August 2004 – SPCHS at the St. Petersburg/Gibbs Campus, under the leadership of former St. Petersburg High

School Principal Linda Benware, and the Honors College out of the office of its newly named dean, Tarpon Springs Campus Provost Bob Ramsay. The charter school, with a capped enrollment of 150, later expanded to 175, serves selected 10th, 11th and 12th grade students from all over the county who are motivated to earn their high school diplomas and an Associate in Arts degree simultaneously (and free) and thus get a two-year jump in their studies. The Honors College operates college-wide and offers expanded curricular options, involvement in more stringent academics, and opportunities for scholarships and other academic desirables. Its first graduation, for 15 seniors, was in May 2005. Its fine reputation resulted in its being featured in a Jan. 17, 2006 telecast of the U.S. Department of Education's live program, *Education News Parents Can Use*. Principal Benware appeared on the segment.

Also in 2003, separate disclosures came from the University of Florida that the University Partnership Center building would be joined by additional structures. UF's College of Pharmacy announced in February it would build an 8,000-square-foot building for its Doctor of Pharmacy program that operates at the UPC. Then in May, the UF College of Dentistry announced it would become a partner at the UPC and would build a 14,000-square-foot building to house its activities there. The dental program includes a postgraduate program in Dentistry, a dental clinic (accommodating 15,000-20,000 patient visits a year), Continuing Education, and a cooperative agreement with SPC's Dental Hygiene program. The UF Pharmacy building opened in April 2005, the UF Dental building in September.

In January 2004, the College began offering, online, the only baccalaureate degree in Florida in Dental Hygiene, "rounding out" its two-year program, which was 30 years old at the time. SPC's move helped answer needs expressed by the state dental hygiene association, which urged the program's formation.

Also that January, SPC's eCampus was named America's Outstanding Distance Education Program by the American Association of Community Colleges' Instructional Technology Council (ITC); also, SPC Humanities Professor Kevin Morgan was one of two instructors nationally to be named Outstanding Online Faculty. At the time, the program was SPC's fastest-growing. By summer 2005, it was the largest campus, with an enrollment 34 percent higher than St. Petersburg/Gibbs'. More national honors came eCampus' way in 2005 as Jan Ballantine was one of four online faculty in the country recognized by the ITC for creating an Outstanding Online Course (and hers was in *speech*). At the beginning of 2006, Anita Naravane of Natural Science, Seminole Campus, was ITC's choice as Outstanding Distance Education Faculty Member in the nation. Later that January, the College learned that for the fourth time in four years, SPC led Florida's community colleges in all three major categories of distance learning (number of courses offered, number of duplicated enrollments, and unduplicated headcount). Dovetailing with all this: In April 2004, in the second annual Digital Community Colleges Survey, SPC was ranked No. 5 in the nation by the American Association of Community Colleges and the Center for Digital Education. A year later, it rose to No. 1. The rankings applied not only to eCampus, but to all of SPC's technology support offices. Nearly 1,000 colleges were invited to take part in the rankings surveys.

A new capital campaign – "75 Years and Growing" – began in March 2004 with a target of at least \$7.5-million in private contributions earmarked for scholarships, faculty development, capital projects and academic programs. The campaign name marked completion of the College's first three-quarters of a century, a milestone reached in September 2002. The campaign got a major boost at the outset with a \$75,000 donation from former Foundation President Alfred T. "Al" May, Class of '58 and a 2001 winner of the Outstanding Alumnus Award. The first year of fundraising was so successful that the campaign extended its goal to \$12.5-million in the spring of 2005. It is projected to run until 2009.

The 2004-05 baseball team finished the year with an exclamation point. The Titans won the state community college baseball championship for the first time in SPC's history when they defeated Chipola College 3-0 behind the pitching of Todd Redmond, who won the state tournament's Most Valuable Pitcher award. Later in May, Coach Dave Pano's team flew to Grand Junction, Colo. to compete in the National Junior College Athletic Association World Series. The Titans made it to the title game, but lost 6-3 to New Mexico Junior College and had to settle for No. 2 in the nation. Todd Redmond and infielder Ovy Ramirez were named All-Tournament. SPC's most successful season ever in a major sport culminated with the naming of Pano as NJCAA Division I Region 8 Coach of the Year.

While the softball team did not excel in the post-season, it had a national star in outfielder Sherrel Fountain. The Bahamas native wrapped her second season for the Titans by making second-team All-America for her play and batting, and first-team Academic All-America for her scholarship.

In the spring of 2005, Dr. Kuttler was honored by the city of St. Petersburg when he was named "Mr. Sun" in time to participate in the city's Festival of States. The honor allowed him to represent the city at festivals around the country. In 2006, he turned the title over to longtime SPC supporter Thelma Rothman, who became "Ms. Sun."

In August 2005, a major shift in the College's online Learning Management System occurred when WebCT was replaced by "A New Global Environment for Learning," or ANGEL. While 100 percent of the faculty who teach online courses were certain to be impacted by the changeover, administrators believed all faculty potentially would be affected because of the widespread benefits afforded by ANGEL's greater flexibility. Thus, several hours of training – as little as one, as many as six – were made available to all.

The 2005-06 academic year started out on a historic note as the College returned to downtown St. Petersburg in its own facilities for the first time in nearly 64 years. SPC Downtown opened at 244 Second Ave. N, across the alley from the old Maas Brothers department store building that in recent years had housed the Florida International Museum (FIM). It was December 1941 when the College moved from its original downtown site, overlooking nearby Mirror Lake, to its newly built campus on 66th Street N overlooking Eagle Lake.

The College actually has been back in the heart of St. Petersburg since the fall of 1998, but in facilities "borrowed" from the University of South Florida campus and later from the First United Methodist Church. The new SPC Downtown is four stories, with a five-story parking garage next door. The first floor is shared with FIM, which had to move after the city sold its building to private developers. The second floor was finished out in 2006, while the third and fourth floors are on unfinished standby until needed. By mid-September, SPC Downtown's enrollment had surpassed 1,200. The facility is administered by Center Executive Officer Yvonne Ulmer.

Meanwhile, SPC Midtown at 1048 22nd St. S was thriving in its third year as enrollment shot up from approximately 175 students in Year 2 to more than 250. That facility is located in the St. Petersburg Housing Authority's Center for Achievement, and offers regular and Dual Credit classes. It also provides space for a WorkNet Pinellas One-Stop Center and for PTEC certificate classes for nursing assistants and home health aides. Resident coordinator is Keron Jean-Baptiste of Educational and Student Services.

The fall of 2005 saw SPC selected as one of seven Florida community colleges to share in nearly \$11.2-million in grants under President Bush's Community-Based Job Training Initiative. SPC's \$1.65-million share was to be spent in the area of health care – primarily in the College of Nursing on efforts to produce hundreds of additional R.N.s to help offset Florida's severe nursing shortage.

Fall 2005 brought more good news for the College. Keith Goree, instructor-in-charge of the Applied Ethics Program, won the Association of Community College Trustees' William H. Meardy Award, one of the most prestigious national commendations presented to community college faculty. The Florida Association of Community Colleges' Region IV Chapter of the Year Award went to SPC, and Willie B. Felton Jr., a vice president of Educational and Student Services, entered the Florida Community College Activities Association Hall of Fame. (Earlier SPC members: President Kuttler, two-time Athletic Director Ed Long, and George McCrossin, who coached men's basketball at SPC from 1952 to 1986 and coached the golf team to national championships in 1968 and 1969.) Then, President Kuttler received the St. Petersburg Area Chamber of Commerce's highest honor, the C.W. Bill Young Award, presented for his efforts in guiding SPC to "a college of national stature and reputation." The award is named for Kuttler's friend and mentor, the longtime congressman from Indian Shores. In February 2006, Kuttler was one of seven area leaders inducted into the Tampa Bay Business Hall of Fame. April found him at Harvard

University, where he was one of 80 leaders worldwide invited to speak at a workshop at the John F. Kennedy School of Government. His topic: "Entrepreneurship in the Public Area."

Seven years after it opened with six partners and 231 enrolled students, SPC's University Partnership Center in the spring of 2006 had 15 partners and a record 3,729 students, which was 16 percent more than one year before.

Spring 2006 at the Seminole Campus also brought the startup of Operation Hometown Link, which, with the help of the Freedom Calls Foundation, provides two-way, interactive hookups for American families to talk with loved ones serving in the military in Iraq. The setup at SPC connects to bases in Taji, Fallujah and Al Assad, and puts approximately 25 percent of the U.S. servicemen and women who are in Iraq within reach. Screens at either end enable the communicating parties to see each other as they talk.

The 2005-06 sports year was historic for the College as the four teams competing in the Suncoast Conference – women's volleyball, men's basketball, women's softball and men's baseball – all won their respective conference championships for the first time ever in the same year. While SPC's fifth sport, women's basketball (which competes in the Southern Conference), did not win its championship, it did make it to the state tournament along with the other four. Then-Athletic Director Lars Hafner called it "a great credit to our varsity sports programs, the coaches, players, support staff and fans."

The 2006 May graduation was notable in a number of respects, but especially in two: It was the College's 100th commencement ceremony, and it had Gov. Jeb Bush as keynote speaker (he received an honorary Bachelor of Science degree from the College of Education as well). The ceremony also was an occasion to honor SPC's first Professor Emeritus, William M. Keller. Keller, Natural Science, Clearwater Campus, taught full-time for 39 years before retiring in 2005 and becoming an adjunct. In addition, the ceremony featured the first dual graduates, 40 in all, from St. Petersburg Collegiate High School (the College's charter school on the St. Petersburg/Gibbs Campus). The following month, SPCHS learned that after only two years of operation, it was ranked fifth in the state by the state Department of Education. Moreover, it was the top-ranked "A" high school in Pinellas County. The rankings were based on high standards achieved and learning gains made in reading, writing and mathematics. In 2007, the school once again was ranked No. 1 in Pinellas County and one of the top 10 in the state.

The College received \$800,000 in federal funding in May 2006 to establish the National Center for Cybersecurity Education (NCCE) at the EpiCenter. The bulk of the funding, secured for the College by Rep. C.W. Bill Young through the Department of Defense, will go toward development of mostly online courses in cybersecurity and computer crime investigation. The NCCE is the first operation of its kind in the Southeast.

Two notable events occurred in June 2006. Pitcher Pedro Beato became the College's highest Major League Baseball draft choice ever when the Baltimore Orioles picked him in the first round. And retired Russian cosmonaut Boris Volynov – who trained with Yuri Gagarin, the first human in space – paid a visit to SPC with his wife, Tamara. Volynov was here at the invitation of President Carl M. Kuttler Jr., who is an honorary consul for the Russian Federation and who met Volynov on one of his trips to Russia.

In 2007, Chris Garcia, third baseman, was the first SPC baseball player named an All-American. He was the 487th player chosen in the Major League Baseball Amateur Draft and signed with the Los Angeles Angels.

The College's online learning management system, known as ANGEL ("A New Global Environment for Learning"), was recognized nationally in June 2006. SPC was one of three institutions in the country to win an inaugural Impact Award from ANGEL Learning Inc. of Indianapolis. It won in the Exemplary ANGEL Program Awards category.

The latest yearly rankings from the U.S. Department of Education, in July 2006, again brought good news. Matched with two-year programs at both two- and four-year institutions nationwide, SPC ranked No. 6 in the nation for the number of associate's degrees awarded for Liberal Arts & Sciences/General

Studies/Humanities, No. 10 for associate's degrees awarded in Nursing, No. 10 for associate's degrees awarded in All Disciplines, and No. 11 for degrees in Health Professions & Related Clinical Services.

In September 2006, SPC was one of a select group of colleges and universities in the nation chosen as an iTunes U by Apple Computer. As such, the College set about creating a customized Web site on iTunes to enable SPC's student with iPods or other mp3 players to access information from speeches and lectures to use at their leisure.

Two significant medical grants were awarded to the college in 2006: A \$1.25 million grant from the U.S. Department of Labor is helping SPC train workers in Healthcare Informatics, which involves the use and processing of data, information, and knowledge applied to medicine, health care and public health; and a \$1 million grant from the National Science Foundation is being used to develop training programs in the quality aspects of medical device manufacturing. SPC is the lead institution of eight colleges involved in that program.

In February 2007, the SCENE at SPC, a Simulation Center for Excellence in Nursing Education, was established at the Caruth Health Education Center. The new simulated hospital training facility is an interdisciplinary clinical lab. It is a fully-equipped, functional mock hospital complete with patient simulators, which allow students to practice clinical procedures without endangering real patients. The new facility is the result of a \$1.6-million U.S. Dept. of Labor grant obtained in November 2005.

In January 2007, SPC was given the Palladium Theater in downtown St. Petersburg, projected to become the centerpiece of a regional arts center. Also, American Stage, a St. Petersburg theater company agreed to relocate its facility and become part of the arts center. Ground was broken in September for a theater for American Stage adjacent to SPC's Downtown Center. A third piece of the arts picture was the leasing of the fourth floor of the Downtown Center by the Florida Orchestra for its headquarters.

In March 2007, SPC shipped 1,000 refurbished computers to Guatemala to upgrade that country's law enforcement infrastructure. The idea to donate the computers had its roots in a trip SPC President Kuttler took to that country in 2005 following a hurricane that killed many people and did major damage to the countryside. The computers will be used to unite police agencies throughout the country and help modernize their communication abilities and record keeping.

^{*}Beginning the 2004-2005 Reporting Year, the Legislature mandated that credit courses (Advanced & Professional, Postsecondary Vocation, and College Preparatory) will be calculated using the following formula (SSH=number of students x course credit hours: FTE=SSH/30). Historical data was converted to reflect the change.

[&]quot;There are several types of course categories within the credit and non-credit system; prior to 1990-91, the headcount number for non-credit students represented an unduplicated count within each of the various non-credit course categories. Beginning 1990-91, the unduplicated headcount number represents an unduplicated count between all non-credit course categories. However there is still potential duplication between credit and non-credit, i.e., a student who takes both credit and non-credit courses is counted twice. Beginning Fall 2002 the total includes upper division students.

^{*}Utilization ratios are calculated for rooms coded as 110 (general purpose classrooms), 120 (computer classroom), and laboratories coded 210 (non-vocational and vocational) in the Facilities Data Base. Room Utilization is defined as weekly hours of room use; the standards are 40 hrs/week for classrooms and 30 hrs/week for laboratories. Space utilization is defined as weekly hours per student station; the standards are room occupancy rate equal to .60 and laboratory occupancy rate equal to .80.

^{*}Based on State established scores.

Office of Institutional Research Source: Entry Level Test Report Student Data Base Revised: 7/24/2007

^{**}Beginning July 1, 1996, the College switched from the MAPS placement test to the Florida College Entry Level Placement Test or its computerized version, CPT At the same time cut scores for placement into college level coursework were increased from 78 to 83 in English, 72 to 83 Reading, and from 51 to 72 for Mathematics.

^{***}In an effort to more accurately represent data associated with the Readiness for College Report generated by the State Board of Community Colleges, SPC increased its efforts in reporting other tests. Consequently, beginning 1998-99 all test scores used for placement are reflected in the totals. In the past only the MAPS or CPT scores were reported.

#### APPENDIX D

#### **Services for Students with Disabilities**

St. Petersburg College provides comprehensive academic support for any student who presents qualifying documentation of disability. Beginning with the formation of the Program for the Deaf and Hard of Hearing in 1966 and the Office of Services for Students with Disabilities in 1991, SPC has been a leader in serving students with special needs. A faculty-level Learning Specialist is available at each campus to supply information, approve documentation, arrange accommodations, and provide student and faculty support, with the assistance of a staff of over 20 professionals and 100 student volunteers collegewide.

The type of qualifying documentation needed varies with the diagnosis. A description of the correct paperwork to submit for consideration is available from any Learning Specialist. Services are assigned on an individualized basis, and may include testing accommodations, priority registration, interpreters, audio amplification equipment, C-Print captioning, notetakers, scribes, readers or taped testing, low-vision enhancement equipment, adaptive computers, permission to use spellcheckers or tape recorders, adaptive desks or chairs, limited professional tutoring, or other services as approved. All services are provided without cost to the student.
